

Coronavirus (COVID-19)

Update from Root and Stem Catering & Greenleaf Catering

At Root & Stem/Greenleaf, the health and safety of our clients and employees are our top priority. We will continuously monitor the spread of COVID-19 and the recommended guidelines from the CDC.

We are currently taking proactive and preventative measures to protect our space and food orders against the exposure of the virus. As always, our team will follow our strict standard of food safety guidelines. In addition to our current standard, our department leads have implemented additional preventative methods across all departments to ensure everyone's safety. Our on-site staff for events and meetings will be required to wear gloves at all times and we will continue with our current policy of having our staff to stay home when ill.

We will adjust our protocols, as appropriate, as knowledge of COVID-19 emerges. Below we have created a boxed meal menu to avoid communal buffets during this time.

We truly appreciate your continued business, please do not hesitate to contact us should you have any questions. If you would like to replace a current order with any of the options below, please email or call our office at 703-289-1281

As a reminder our boxed meal options listed below will be in addition to our full drop off catering and event menus available, please note the boxed meal options are subject to a minimum of seven.
